

Faster and environmentally-friendly

Tighter environmental constraints combined with local policies on Long Island led US printer Sterling Digital to add ECO3's Adamas chemistry-free printing plate to their press operations. *"Not only is Adamas a lot faster, but it also meets our environmental criteria,"* says Prepress Director Dominick Yannotti.

Apogee boosts efficiencies

Roularta Printing, part of Belgium's leading magazine publisher, implemented ECO3's Apogee software to maintain its leading position. According to Production Manager Peter Leroy, *"We firmly believed that the integration of Apogee would not only provide us with significant efficiency gains but also serve as the optimal interface with the new ERP system, which we were implementing in parallel."*
