Product Spotlight

Avalon C4-30

This thermal CtP system offers automation and excellent plate imaging capabilities for the B2 market.

MAGIS FC3D+

We strive for excellent image quality in our flexo offering and this measuring device helps printers maintain that quality.

Boosting plate output at Sanoma Manu

The Finnish newspaper printer relies on ECO3 prepress solutions, such as [N95-VCF](#) printing plates and an [Arkitex](#) workflow, for peace of mind. "Local and service-oriented support is particularly important to us, and with ECO3, both these crucial aspects are covered," says Production Manager Jukka Ojanen.
