Faster workflows, smarter growth at DielleStampa

Italian packaging printer DielleStampa transformed its prepress with Amfortis, achieving in 10 hours what once required 2 shifts. Greater automation, full workflow integration and process-free plates now deliver faster production, stronger quality control and a flexible setup ready for future growth.

Eclipse Pro, the most convenient plate

"The excellent and stable image contrast, along with the swift start-up of Eclipse Pro, makes it stand out among other process-free plates. I would definitely recommend Eclipse Pro to other printers," says Robert Lindahl of Swedish printing company Risbergs. Eliminating the need for processing equipment, chemicals and maintenance does make Eclipse Pro the most convenient plate.

The five largest SPIR@L users in Europe save a combined 4,500 tons of ink each year thanks to our innovative screening technology. To visualize that volume, imagine stacking all that ink across the playing field of a football stadium. Our SPIR@L white paper tells you all about the advantages of spiral-shaped dots.
