Discover the strategy powering Inland Group’s growth

"We've grown about 10% every year using ECO3 APOGEE automation software, without adding to our workforce," says C.J. Urban, Vice President of Operations of the California-based Inland Group.

Featured downloads

Flat Top Dots guide for flexo printing

Print instability rarely starts on press. It often starts at the dot level. Our *Flat Top Dots Decoded* guide explains how dot geometry and caliper consistency impact real press behavior, especially when moving platemaking in-house.

Discover Avalon VLF CtP

Looking for large-format plate production solutions? Download our brochure to explore the 16- and 24-up *Avalon C VLF CtP systems*, or check out our classic *Avalon N VLF platesetters*, that support plates up to 2,280 by 1,600 mm.
